If you took dinner, how long a time did this consume? About 30 minutes.

If you went fishing on the beach, about what time did you actually go there? Between 7.30 and 8 o'clock.

Did you go direct to the beach or did you stop anywhere? - Stopped at Mr. Stearn's house.

If you stopped anywhere, for what purpose did you stop? For bait? yes for bait.

Did you talk with any one that night? yes.

Did you see Henry Stevens on the beach? If so, what was he doing? fishing.

Did you converse with him? yes.

What other persons did you see on the beach? - I saw a number of men fishing. I assume they were the ones who fish regularly.

What, if anything, occurred? Nothing except the usual things that happen when you fish.

If you fished, were you close to Mr. Stevens? If so, about how many feet? 10 feet or less, depending on conditions. As a rule Mr. Stearns and I would cast out our lines and then sit close together on our boxes and talk.

How long did you fish? Until about 9.45.
